

W-INCOMES

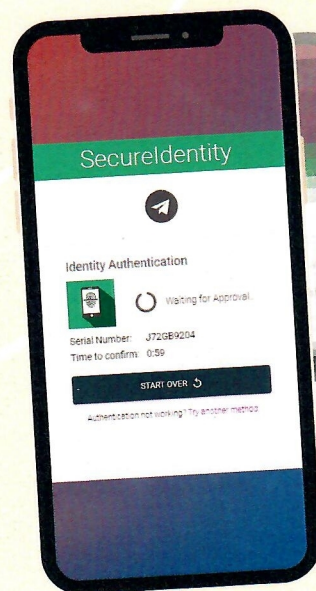

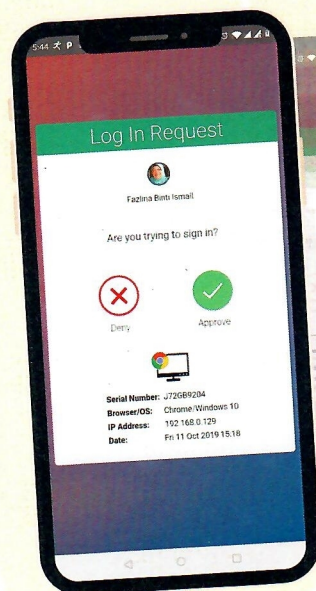

THE PRODUCTIVITY ENABLER

W-INCOMES is short for:
Web-based Integrated
Cooperative Membership
and Accounting System,
and is an enhanced
release of our flagship
application: **INCOMES**.

The product was initially conceptualized, designed and developed in 1981. Since then, myriad installations and version upgrades have propelled INCOMES into one of the best Membership and Accounting system for Cooperative Societies in Malaysia.

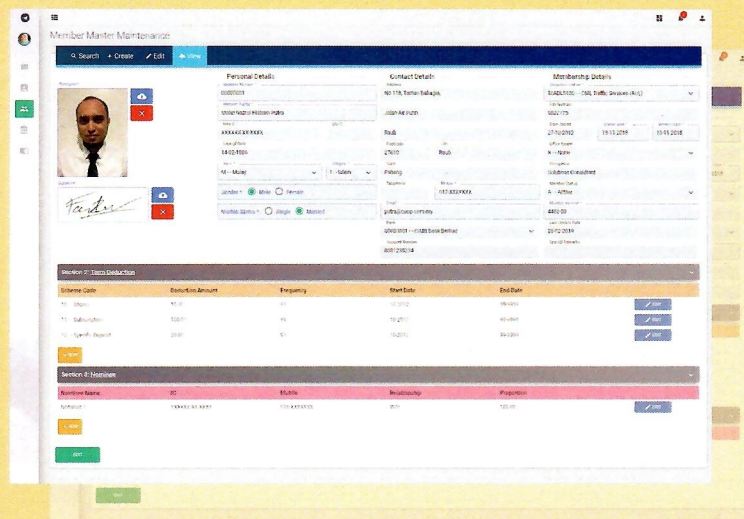

INCOMES/W-INCOMES will enhance the efficiency and effectiveness of the staff of the Society. Instead of spending valuable time and effort on mundane tasks, staff can spend more time and effort providing useful services to members, which will enhance the quality of such services, and also help improve Member-Society relationships.

Highlights of INCOMES/W-INCOMES

Designed and developed for Cooperative Societies in Malaysia. This ensures that the solution fits the needs and wants of the Cooperative Society and not the other way around.

Over 30 years track record in the development and implementation of software solutions for cooperative societies. Immense tacit knowledge has been accumulated to assist and advise our clients do things right the first time.

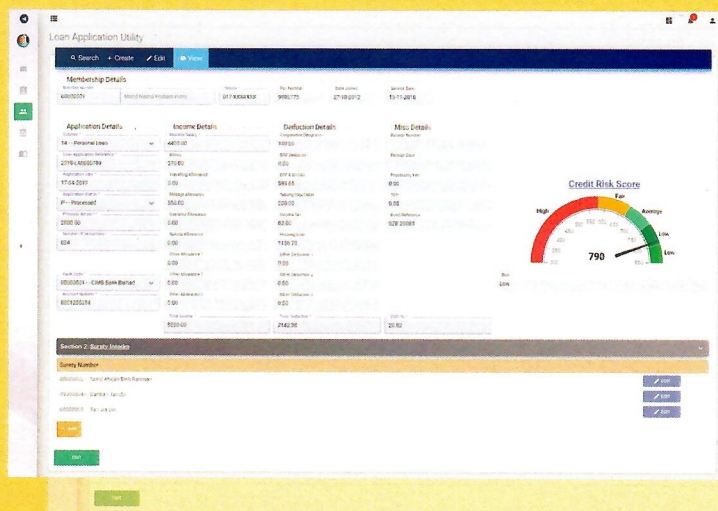

Very rich in functions to improve the efficiency and effectiveness of Cooperative Societies. Staff may focus on serving members' instead of spending valuable time performing mundane data entry and verifications tasks.

Security: the aspect of security is given top priority in the design and development of W-INCOMES. Extensive audit logs have been established to ensure responsibility and accountability. Access controls are stringent and we employ leading edge 2-Factor Authentication algorithms to ensure that only authorized persons can get access to the system.

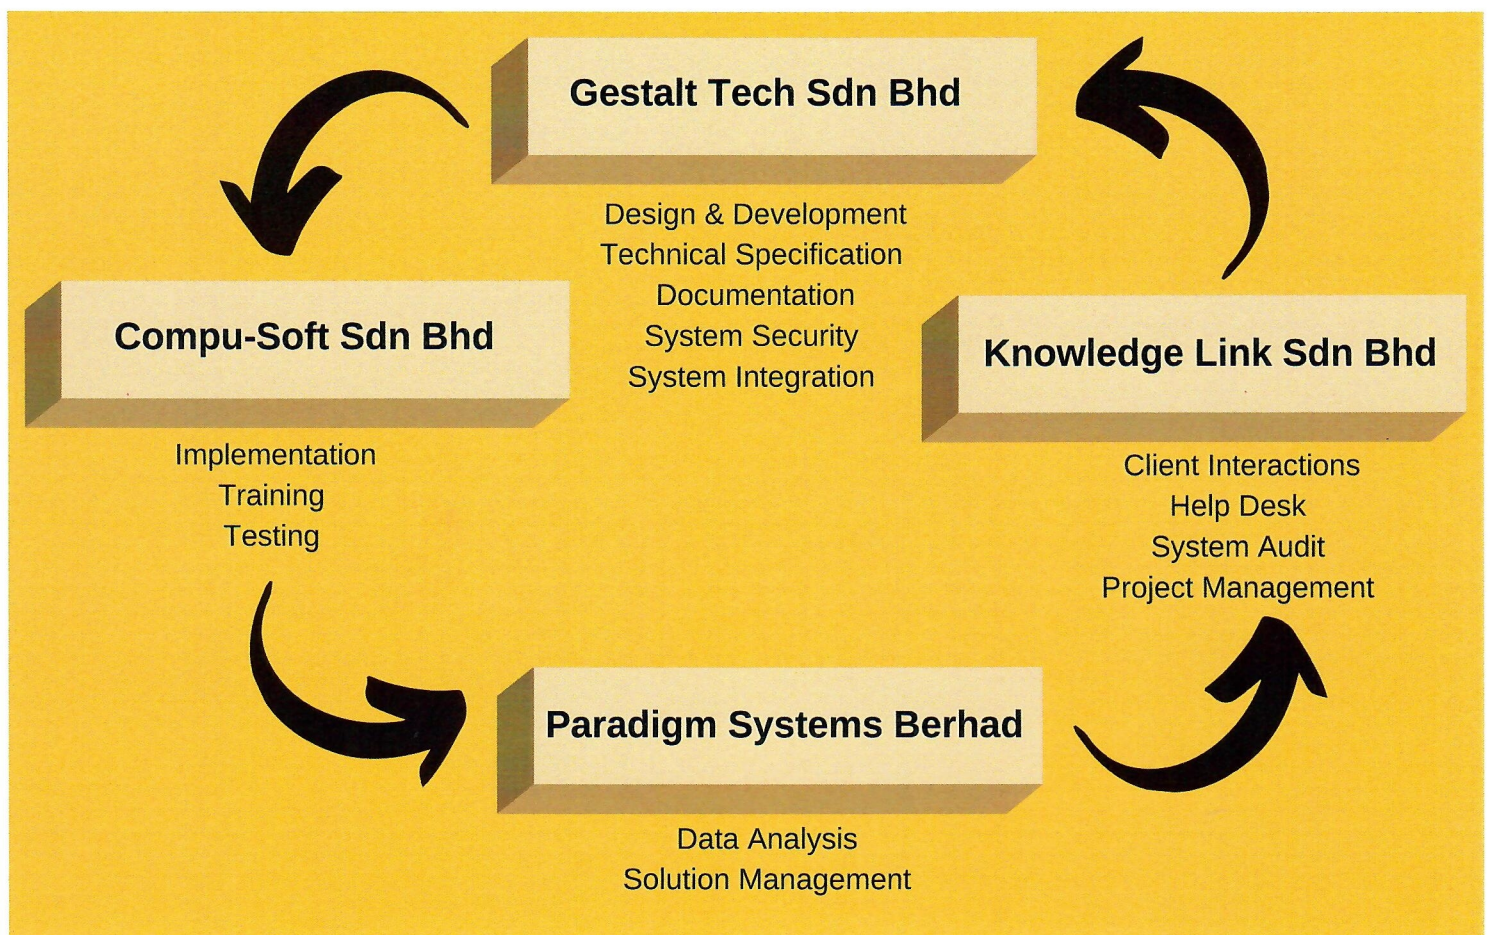

Clients have the option of implementing the solution on a Cloud based server environment, co-located server environment, or local server environment. This offers our clients the power and flexibility to suit the Society's strategies and long term needs

Data analytics: data is just data and has very little use unless such data can be transformed into information and knowledge. W-INCOMES essentially does that; which will assist the Society make more informed and better decisions.

Integration: W-INCOMES is a comprehensively integrated system. All relevant transactions update seamlessly across modules. This reduces unnecessary repetition of data entry, and will eliminate potential errors and omissions.

Visualization: all relevant data will be transformed into graphs and charts, in order to understand and draw meaning from them, effortlessly.

In the knowledge economy, traditional structures are failing badly. They are cumbersome and are often inadequately prepared to handle rapid changes which are taking place in the environment. Gestalt Tech Sdn. Bhd. (**GTSB**) has understood this phenomenon well; and built an organization which specializes in key areas, and collaborates with Partners to offer top of the stack solutions to its clients. Our clients are assured of best in class software, support and security.

GTSB has assembled a team of highly qualified experts, including some with Masters and PhD qualifications in their respective areas of expertise, to ensure that we offer unmatched quality for the benefit of our clients.

An IT solution is a long-term investment and must be viewed as such. It may be a game changer for some. Therefore, trial and error and short-term horizons may be costly and uncertain. We have made sure that our solutions are stable, reliable, scalable, flexible, and should be a catalyst for improved productivity and performance. This philosophy permeates throughout **GTSB**, and its partners.
